

ROYAL LIVER BUILDING

# The Royal Liver Building's Christmas Light Show

# Christmas Light Show

13th - 30th December  
6pm & 7pm

25th - 26th December  
5pm, 6pm & 7pm

1

## Snowy Sky

We open with a soft snowfall all around us, signalling that winter is here and it is Christmas season.

2

## Silent Night

Bertie and Bella take their places as the Angels at the top of the Christmas Tree.

3

## O'Christmas Tree

The tree slowly comes alive, twinkling and winking in the darkness, a sea of green, gold and red.

4

## Rudolph

Suddenly, a dark shape swoops round - is that a red nose we can see blinking in the darkness?

5

## Saint Nicholas

It becomes clear this is Santa Claus as the façades turn into a giant Christmas hat, topped with a fluffy pom-pom.

6

## Tied with a Ribbon

As quickly as he arrived, Santa leaves again, with a bundle of gifts left in his wake to be discovered in the morning light of Christmas day.

## ROYAL LIVER BUILDING

The world's leading real estate advisor, CBRE, has been active within Liverpool for over 100 years. We are a team of experienced professionals committed to delivering excellence on a range of projects.

CBRE is responsible for delivering the redevelopment of the Royal Liver Building, repositioning the iconic landmark as a destination for both work and leisure. This will include new office space, a coffee shop, bar, gym and the RLB360 visitor attraction. The architectural lighting will form part of the legacy and represents just some of the significant investment that will see the iconic building open its doors to the public for the first time.

Simon Hepple, Director for the National Building Consultancy team in Liverpool, commented:

“On behalf of real estate investment manager Corestate Capital Group and as trusted custodians of the future of this enduring symbol of Liverpool's history, we have drawn on the expertise of our multi-disciplined colleagues alongside our strategic partners to deliver a visionary and majestic office building for the 21st century. This is a hugely significant and exciting project for us and one on which we are extremely proud to be instructed.

“The new lighting experience is a vital part of the repositioning of the building. We hope that it will bring joy to visitors to the city, serving as a location to meet, enhancing the waterfront and promoting the Royal Liver Building and Pier Head as a desirable destination to work and visit.”
